

Clark County Rodeo Bible Camp

July 21-25, 2019

Clark County Rodeo Bible Camp is designed to bring youth to Christ while providing instruction in rodeo events. They come to learn rodeo skills and have a chance to perform in a real rodeo; but most come away with so much more. We are blessed by Professional Cowboys and Cowgirls who come to volunteer time, rodeo skills and share testimonies of faith. New lifelong friendships are built with peers and volunteers, but most important, many of these kids open their hearts and choose to begin a new lifelong relationship with Jesus.

WELCOME!

Approximately 100 kids attend Clark County Rodeo Bible Camp each year. Camp each day consists of morning and evening chapel, awesome rodeo instruction, along with testimonies from instructors and counselors along with fellow campers.

Rodeo events include rough stock, bull riding, roping, barrels, goat tying, chute dogging and more. Campers arrive on Sunday and receive three full days of instruction.

Thursday is Rodeo Day! Campers are able to demonstrate what they have learned.

The rodeo is open to the public.

Following the rodeo, is a baptism opportunity and

RODEO SCHEDULE 2019

2:30 - Rodeo Performance

These are the rodeo events.

Please see the Day Sheet insert for the schedule and list of contestants.

- Calf Roping**
- Team Roping**
- Breakaway Roping**
- Rodeo Queen**
- Goat Tying**
- Barrel Racing**
- Pole Bending**
- Bareback Riding**
- Saddle Bronc**
- Chute Dogging**
- Bull Fighting**
- Bull Riding**

Concessions are Available during the Rodeo.

Following the Rodeo, families and friends are invited to join campers for the Awards and Baptism Ceremony.

THANK YOU!

High Desert Roughstock

RODEO HELP

Rodeo Announcer: Scott Burks Davis

Bull Fighters: Eric Schwindt

And special thanks to the Pick Up Men!

INSTRUCTORS

Barrels: Valerie James, McKenzie Hudson

Poles: Sharon Woods, Dawn Thompson, Felicia Harrison

Team Roping: Mark Epperson, Jace Thompson

Breakaway Roping: Reagan Alires, Randee Weygandt

Chute Dogging: Cody Evans, Zach Proctor

Saddle Bronc: Danny Aliris

Bull Riding: Joe Meling, Hayden Hilliard

Goat Tying: Chris Mauk

Calf Roping: Joe Thompson, Marcus Hamlin

Rodeo Queen Coordinator: Amy Burgin-Roggenkamp

Horsemanship: Cathi Parent

Bull Fighters: Eric Schwindt

VOLUNTEERS

Thank you to all of our camp volunteers!

From our wonderful kitchen staff, facility volunteers, team leaders and counselors, administrative help and camp directors, we have over 30 volunteers who help us each year. We would not be able to do this camp without them.

SADDLE BRONC

Rodeo's "classic" event, saddle bronc riding has roots that run deep in the history of the Old West. Ranch hands would often gather and compete among themselves to see who could display the best style while riding wild horses. It was from this early competition that today's event was born.

Each rider must begin his ride with his feet over the bronc's shoulders. A rider who synchronizes his spurring action with the animal's bucking efforts will receive a high score.

Another factor considered in the scoring throughout the ride is the length of his spurring stroke. Model spurring action begins with the rider's feet far forward on the bronc's point of shoulder, sweeping to the back of the saddle, or "cattle", as the horse bucks.

BAREBACK

Instead of saddles, a double-thick leather pad, called a rigging, secured on the bronc's back is utilized.

No stirrups or reigns are used. Slightly off center at the top of the rigging is a leather handhold.

Bareback riders roll their spurs up the horse's neck, called "jerking their knees", then throw their feet high and wide.

The rider must spur the horse over the break of its shoulder when the front feet hit the ground the first jump out of the chute.

POLE BENDING

Pole bending is a timed event that features a horse and rider running a weaving or serpentine path around six poles arranged in a line.

Good horsemanship is the foundation for success in pole bending and barrel racing. The horse and rider team must work as one in order to excel.

Each contestant will begin from a running start, and time shall begin and end as the horse's nose crosses the line.

BARREL RACING

The barrel race originated in Texas in the early 40's using one of Texas' most familiar items.....an oil drum. The cloverleaf pattern was developed to standardize the contest, and the riders race against time around three barrels.

Time starts with the drop of the flag as the rider crosses the score line or, when an electronic timer is used, the horse crosses between the two electronic eyes placed on each side of the arena.

The two barrels at the base of the triangle must be turned first in either order, then the rider proceeds to the third barrel at the point of the triangle, turns back to the score line to be flagged by the judge or timed by the electronic timer.

The entire race seldom takes more than twenty seconds, depending on the size of the arena; with a five second penalty assessed for knocking down a barrel. The prize money goes to the rider whose horse can run the fastest and negotiate the sharpest turns.

TEAM ROPING

Competitive team roping took shape from a routine procedure on cattle ranches where animals were doctored and branded long before the modern squeeze chute came into use. And there still are cattlemen who believe stretching an animal out with lariat ropes is the most practical way, especially on the open range.

In the rodeo arena, the steer is given a head start. The header then must rope the steer's horns, take a wrap around his saddle horn with the rope and then turn the direction of the steer before the heeler immediately ropes the steer's hind legs and dallies his rope around his saddle horn. Time is called when both horses are facing each other with the steer in the middle and both ropes tight.

BREAKAWAY

Also a coordinated effort of horse and rider against time, this event is similar to the traditional calf roping except that the roper does not have to throw and tie the calf after catching it.

Instead, the ropes are tied to the saddle horn by a heavy string in such a manner that allows it to break away from the horn when the calf reached the end of the rope. A color flag is tied to the end of the rope at the saddle horn to make it easier for the field judge to see it break free. Time begins when the calf is given a head start from the chute and ends with the break of the rope from the saddle horn.

A roper receives no time should they break the rope from the horn by hand or touch the rope or string after the catch is made.

CALE ROPING

A calf roper and their horse represent the utmost in teamwork and coordination. With a head start, the calf trips an automatic barrier tripping the flag over the barrier. Time starts with the flag. A ten second penalty is assessed if the roper breaks the barrier.

After the calf is roped, the horse stops and steps back, keeping the rope taut. The roper must throw the calf down by hand, cross three legs and with a "piggin' string" tie with wraps and a "hooley".

GOAT TYING

Goat tying is a rodeo event that is typically seen in youth, high school and college rodeos. The object is to race to the end of the rodeo arena to where a goat is staked out on a 10 feet rope, catch the goat, throw it to the ground and tie three of its feet together.

Contestants dismount their horse while it is sliding to a stop, though usually while still in motion, run to the staked-out goat, which must be taken to the ground and laid on its side in order to tie three of its legs together. The rope used, with an approximate length of four feet, is called a "string." Contestants signal the end of their run by throwing their hands up and getting off the goat to indicate the completion of the run. The contestant with the fastest time wins.

There are penalties that may be added if the goat comes untied during the 6 second period, and a 10-second penalty added to a time if the horse crosses the staked rope of the goat or causes the goat to become loose. If the contestant touches the goat or string after indicating that they are finished, they will receive a no time.

CHUTE DOGGING

Chute dogging is a rodeo event related to steer wrestling, however, the competitor starts the event in a chute with the steer as opposed to on horseback. The event is designed to give novices a chance to prepare for steer wrestling.

When the chute opens, the competitor must bring the steer to a line ten feet from the chute and wrestle (or "dog") the steer to the ground. In order to count as a legal fall, all four feet of the steer must be in the air when the steer is on the ground. The competitor can be disqualified for losing contact with the steer or tripping the steer.

BULL RIDING

Serous injury occurs more often in this event than in any other sport. The loose-hided animals may add injury to gore or trample a fallen rider. They are most dangerous as well in the chute, where their leaning weight can easily break a rider's legs.

Woven with a single handhold, a flat-braided length of Manila rope about an inch-and-a-quarter in width is used nose fashion around the bull, set just behind the animal's shoulders. A weighted bell is also attached to the rope, which allows it to fall free when the ride is completed. A rider dismounts on his own, and relies on the bull-fighters to keep the animal's attention while he gets out of range.

The contest is judged basically the same as both bronc riding events, with the bull being given 1 to 25 points and the rider given 1 to 25 points each by two judges. A score of 100 would be a perfect ride.

RODEO QUEEN

A rodeo queen is a female representative and "face" of the sport and traditions of rodeo and the great western way of life. The rodeo queen is a talented, personable horsewomen with a knowledge of the sport of rodeo, the equine industry and the rodeo, community or organization she represents.

She represents her rodeo, association, or region for a standard time of usually 12 months and usually is required to wear a cowboy hat, crown, and sash with her title on it. During her year reign, she will travel with her horse and participate in regional rodeos, parades and events. Rodeo Queens also make special appearances at her cities local events and organizations, to promote community service and giving back to her community.

IN MEMORY OF JAKE THOMPSON

September 21, 2003-June 24, 2017

“Fearless”

For God hath not given us the spirit of fear, but of power, and of love and of sound mind.

2 Timothy 1:7

You pray and ask Jesus to
come into your heart,
and then you go down
under the water.

The old heart and all
the bad washes away.

Then, when you come
back up, it's like you have a
new heart and Jesus is in it.

Jake Thompson

*Be
Fearless*

JAKE THOMPSON MEMORIAL BUCKLE

Jake Thompson was a kid who brought joy to many. He brought joy and laughter to every one's day. Jake managed to make you feel like a kid again, with a pure sense of joy, love, light, and laughter. And, this was occasionally accompanied by jokes and pranks that always came from the bottom of his heart.

Jake was one that was blessed to be given the spirit of a kid, wholly and completely. That was shown by his love for others and of course, having fun. Jake had a smile that was absolutely infectious. His smile encouraged everyone around him, whether they knew him or not, to smile back. Along with his gifted spirit, he was utterly fearless. He tackled any event, any dare, and any challenge with a smile.

The **Jake Thompson Memorial Buckle** is in memory of a Cowboy who lived with a wholesome childlike spirit. One that enjoyed the sport of rodeo without failure, and had a relationship with God that was beyond his years.

We will award the camper that best exemplifies those qualities with a buckle in his memory.
